CRM+ Solution Highlights

Revol Onesuite CRM+ delivers powerful Customer Relationship Management (CRM) capabilities, including Sales Force Automation (SFA), marketing automation, customer support and service, ecommerce and flexible customization, all in a single cloud CRM solution. And unlike typical CRM solutions, Revol Onesuite CRM+ includes powerful sales performance management, order management and partner management.

Revol Onesuite CRM+ provides SFA that equips the sales team with an accurate record of each opportunity and its status, a complete view of the prospect and real-time access to every detail.

- ✓ Improves sales efficiency with sophisticated document management capabilities to build and maintain a sales portal.
- ✓ Enables the sales team to manage opportunities across status, potential revenue, key contacts, notes, related documents and more.
- ✓ Provides sales managers with a complete view of all leads and opportunities in the pipeline.
- ✓ Comprehensive contact and activity management ensures sales has the tools needed to capture detailed records of all interactions.
- ✓ Enables the sales team to convert opportunities into quotes and then sales orders with one click.

HRM+ Solution Highlights

Revol Onesuite HRM+ is the most complete HR management solution for small, mid-size and big companies.

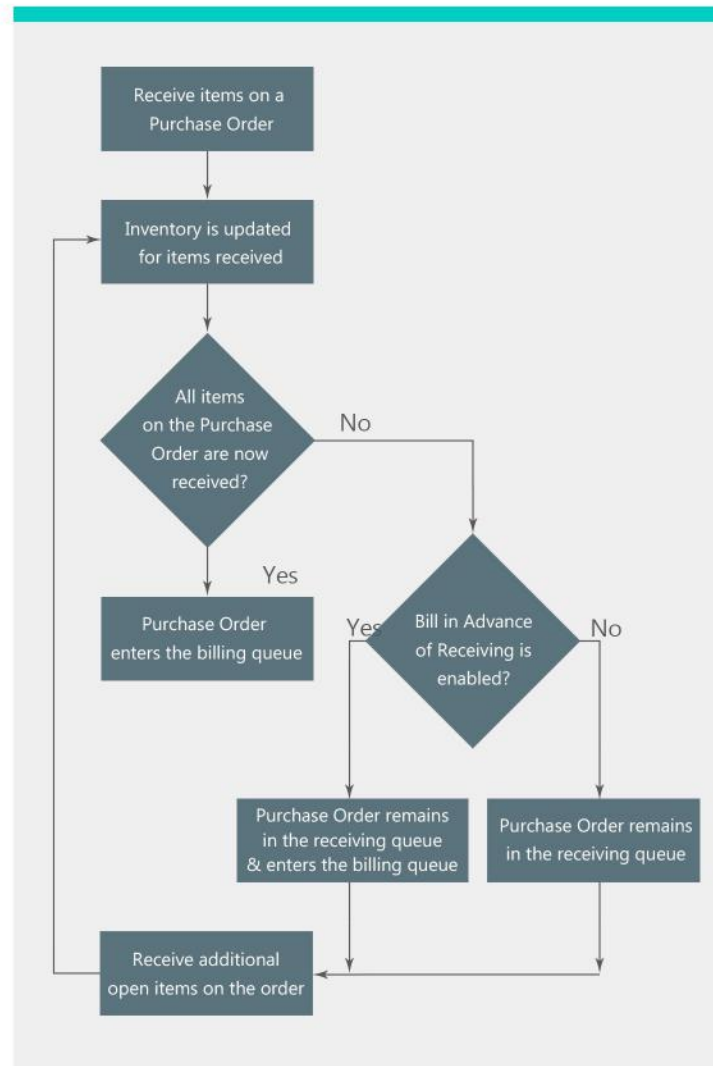

Order Management

Today's business environment demands efficient, transparent and automated order fulfillment. It's what differentiates your business and creates loyal customers who buy more and become brand advocates.

Revol Onesuite Order Management enables you to meet and exceed rising customer expectations for quick, accurate order fulfillment, while profitably scaling your business.

Revol Onesuite helps to achieve this goal by:

- 1 Increase revenue and customer lifetime value
- 2 Boost profits with effective inventory and order management
- 3 Deliver seamless, cross-channel interactions
- 4 Empower employees to service customers across all touchpoints
- 5 Spend less to integrate, maintain and change your order management processes

Procurement Solution Highlights

Purchasing can be a time-consuming and inefficient ordeal, especially when requests for goods and services have to be processed manually using a combination of phone calls, emails, paper catalogs and faxes.

The goal is to help companies buy goods and services at the best cost and in a timely manner.

Revol Onesuite helps to achieve this goal by:

- Saving employee's valuable time with more automated process.
- Reducing costs by channeling purchases to approved suppliers and pre negotiated contracts.
- Improving visibility by rendering real-time information on company spend and vendor performance.
- Automate approval routing
- Enforce active purchase agreements
- Track vendor performance
- Integrate native transaction flows
- Gain a 360° view from the procurement dashboard

Item Receipt

The Revol Onesuite receiving process has the flexibility to receive items from vendors, partners, customers and other subsidiaries and locations using the same transaction flow.

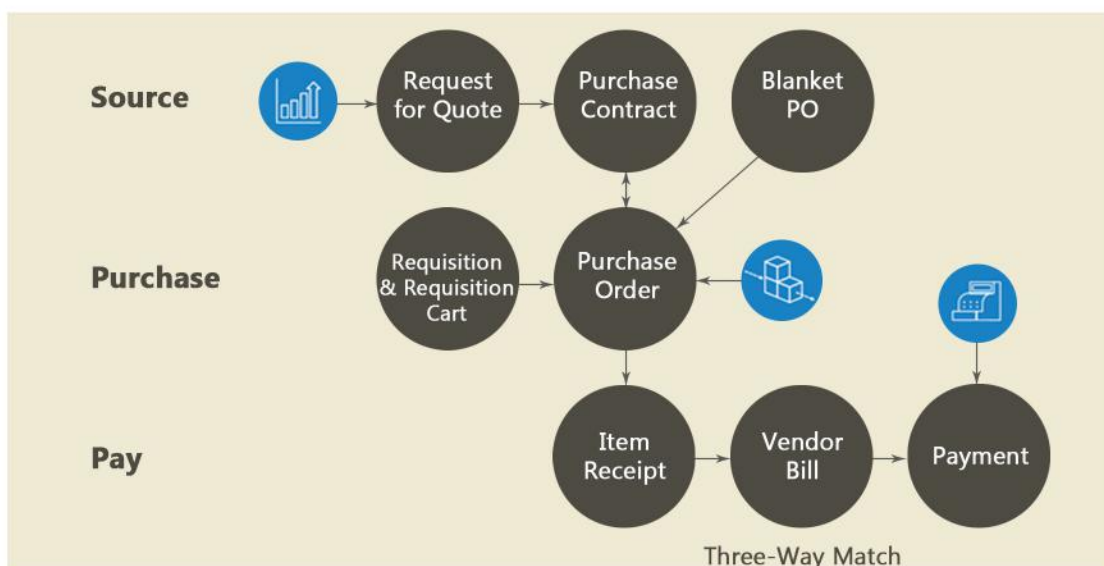

Vendor Bill

Track payables by entering bills as they arrive from vendors and pay them from the payables list as they are due. This provides an accurate picture of payables at any point during the billing cycle.

Payments

After entering vendor bills and putting them through the three-way match approval process, they can easily be paid when due. By recording the bill payment in Revol Onesuite, the payment posts to the general ledger as an expense and the amount of the payment is deducted from your accounts payable total.

Finance Solution Highlights

Comprehensive Accounting and Finance

Revol Onesuite provides you with everything you need to establish efficient processes and gain transparency into business operations. In addition to standard general ledger functionality, flexible workflow tools to customize your processes and multi-currency support,

Revol Onesuite also delivers:

-  End-to-end visibility into your receivables and payables with integrated order-to cash (i.e. sales order, billing, collection) and procure-to-pay (i.e. requisition, purchase order, invoice) transaction management
-  Inventory fulfillment and costing from factory-to-store with supply chain management capabilities
-  Complete fixed asset lifecycle tracking and reporting from acquisition to depreciation to retirement
-  Support for project accounting and reporting on project financials and profitability
-  Automatic revenue recognition in accordance with accounting standards using flexible scheduling and sophisticated allocations
-  Full-service payroll processing, including support for time tracking, incentive compensation and expense reimbursement
-  Integrated budgeting and forecasting tools to manage financial projections against actuals
-  Features customizable dashboards displaying key information such as accounts receivable, orders and accounts payable
-  Provides multiple reports including income statements, balance sheets, consolidated reports, variance reports and side-by-side comparisons
-  Supports unlimited numbers of general ledger accounts, sub-accounts and segments
-  Streamlines invoice creation by automatically calculating sales taxes, finance charges and discount terms

Financial Close Management

Revol Onesuite helps organizations streamline the close process with capabilities to manage period-end activities, and to detect and respond to problems before they escalate or occur. Revol Onesuite optimizes the financial close by delivering:

- ◆ Period locking to prevent incorrect postings to future periods
- ◆ Period close checklist of tasks to be completed sequentially
- ◆ Financial adjustments for intercompany transactions, foreign currency revaluation and inventory

Effective Compliance and Control

Revol Onesuite helps ensure compliance with various accounting standards and practices and government regulations efficiently. It enables accounting compliance by delivering:

- ◆ A powerful rule-driven engine to produce financial reporting in accordance with multiple accounting standards (e.g. GAAP, IFRS) using multi-book accounting capabilities
- ◆ Pre-built tax filing and reporting tools that are country-specific
- ◆ Customizable roles with permissions that support segregation of duties
- ◆ Audit trail visibility into detailed transaction history, reports and saved searches
